

Toytime in Your Classroom

Key Stage 1

45 minute session

Compare toys and games of today with some fantastic real and replica toys from the past. Pupils will dress up as Victorians and see how a zoetrope works as well as playing a game of quoits. Additionally there will be a skipping challenge in which teachers are invited to participate. Pupils will learn about materials and will see how technology has changed the way that children play. This is an excellent session for learning through play and hand-on experience.

Learning outcomes

Your pupils will:

- Use discussion and role play in order to learn
- Identify similarities and differences between ways of life in different periods
- Listen and respond appropriately to adults and their peers
- Increased vocabulary through descriptive discussion
